

Content

T. D. Karimbayev , A. A. Luppov

Model of fatigue life of composite materials. The main approaches.....1

N. T. Kakhramanov, N. B. Arzumanov, S. S. Pesetskiy, A. D. Ismailzade

Rheological characteristics of nanocomposites based on clinoptilolite
and ethylene-propylene block copolymer.....14

N. I. Novohatskaya, O. F. Shahlevith, S. A. Abashkin, S. T. Mileiko

On oxidation of molybdenum matrix in composites with fibres containing yttrium.....22

T. T. Khachatryan

Synthesis of polyaniline/antimony pentoxide nanocomposites.....26

K. S. Vasilchenko, N. A. Temnikov

Investigation of ballistic protection of space structures
using flexible composite materials.....32

D. L. Starokadomsky

Physic-mechanical properties and nano-microstructure
of Epoxy-composites with cement, chalk and gypsum.....39
