

Content

I. V. Afanasyeva, A. I. Noskov, A. K. Gilmutdinov, O. N. Bezzametnov

Characterisation of air contaminants emitted during laser cutting
of carbon fiber reinforced composite materials93

S. B. Sapozhnikov, A. V. Kheruvimov

Development of hybrid thin-plycomposites with highest structural strength99

Christos Kassapoglou

Stress determination and failure prediction of laminates with holes under static and fatigue loads107

V. L. Raikher

On some key issues of the aircraft safety with respect to fatigue life of composite structures116

N. T. Kakhramanov, Z. N. Guseynova, R. N. Lalayeva, L. X. Xamedova, R. Sh. Gadjeva

Properties dynamically vulcanize thermoelastoplastics on the basis
of polyolefins and ethylene-propylene-dien rubber123

S. N. Galyshev, A. I. Gomzin, R. F. Gallyamova, A. Yu. Nazarov, E. L. Vardanyan, F. F. Musin

On the strength of carbon-fiber/aluminum-matrix composite wire129
