**Vol. 2, No. 3, 2008**

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.  
Distributed worldwide by Springer. *Journal of Surface Investigation. X-ray, Synchrotron and Neutron Techniques* ISSN 1027-4510.

## **Proceedings of XVIII International Conference “On Ion-Surface Interaction” (ISI-2007) (Moscow Aviation Institute, Moscow, Russia)**

Application of the Thermal Spike Model for Explanation of Variations of Surface Structure of Highly Oriented Pyrolytic Graphite under Bombardment by $^{86}\text{Kr}$ and $^{209}\text{Bi}$ Fast Ions with High Ionization Energy Loss <i>I. V. Amirkhanov, A. Yu. Didyk, D. Z. Muzafarov, I. V. Puzynin, T. P. Puzynina, N. R. Sarkar, I. Sarkhadov, and Z. A. Sharipov</i>	331
Structure Transformations and Amorphization of Fe–Zr Alloy under Irradiation with Nitrogen Ion Intense Flows <i>A. V. Byeli, V. A. Kukareko, A. G. Kononov, and E. G. Bilenko</i>	340
Influence of Composition of NiPd Single Crystal Surface Layers on Sputtering Process <i>K. A. Tolpin, M. Yu. Tolpina, and V. E. Yurasova</i>	344
Some Features of Phase Transformations Induced by Selective Removal of Oxygen Atoms from Metal Oxides under Proton Irradiation <i>B. A. Gurovich, A. G. Domantovskii, K. I. Maslakov, and K. E. Prikhod'ko</i>	352
Generalized Dependences of the Reflection Coefficient of Ions from a Relief Surface <i>V. M. Sotnikov</i>	356
Single Electron Loss by Fast Ions in Helium <i>N. V. Novikov and Ya. A. Teplava</i>	360
Interatomic Interaction Potentials and Their Application to the Description of Particle Scattering by a Surface <i>A. N. Zinov'ev</i>	364
Spectroscopy of Charged Particles Elastically Scattered by Plane-Parallel Solid Layers <i>V. P. Afanas'ev, D. S. Efremenko, and A. V. Lubenchenko</i>	371
Regularities of Ion–Electron Emission of One-Dimensional Carbon-Based Composite Material <i>N. N. Andrianova, A. M. Borisov, Yu. S. Virgil'ev, E. S. Mashkova, A. S. Nemov, E. A. Pitirimova, and M. A. Timofeev</i>	376
A Locally Nonequilibrium Model of Long-Range Action during Ion Irradiation <i>P. N. Krylov and A. A. Lebedeva</i>	380
Doping of $\text{ZrO}_2$ by Ion Mixing <i>B. A. Kalin, N. V. Volkov, I. V. Oleinikov, and S. Yu. Nakvasin</i>	385
Formation and Evolution of Nanostructures on Semiconductor Surfaces in the Process of Laser-Induced Inelastic Deformation <i>V. I. Emel'yanov, V. B. Zaitsev, and G. S. Plotnikov</i>	392
Formation of Polymer Films in Low-Temperature Ethylene Plasma <i>A. M. Lyakhovich and N. V. Lyalina</i>	399
Simulation of Processes on a Substrate in the Case of Ion-Assisted Formation of Coatings <i>M. M. Nikitin</i>	403
Application of a Grid Hollow Cathode for Substrate Cleaning before Vacuum Deposition of Coatings <i>A. V. Rogov and A. A. Lozovan</i>	409
Hydrogen Isotope Permeability of Membranes with Inhomogeneous Properties along the Thickness of Material <i>E. D. Marenkov, I. V. Tsvetkov, and A. A. Pisarev</i>	414
Formation of Two-Component Two-Phase Metal Films at Elevated Temperatures <i>L. B. Begrambekov, A. A. Gordeev, and Ya. A. Sadovskii</i>	419

Investigation of Structural Features of Hexadecafluorinated Copper and Zinc Phthalocyanine Films	
<i>V. A. Plyashkevich, T. V. Basova, I. V. Yushina, and I. K. Igumenov</i>	423
Hydrogen-Induced Phase Transformations in Pd–8.3 at % Y Alloy	
<i>V. M. Avdyukhina, G. P. Revkevich, A. Z. Nazmutdinov, G. S. Burkhanov, N. R. Roshan, and N. B. Kol'chugina</i>	429
Surface Morphology of a Si(310) Substrate Used for Molecular Beam Epitaxy of CdHgTe: II. Si(310) Surface Annealed in As <sub>4</sub> Vapors	
<i>M. V. Yakushev, D. V. Brunev, K. N. Romanyuk, and Yu. G. Sidorov</i>	433
Radiation-Enhanced and Thermostimulated Hydrogen Release from Palladium and Zirconium	
<i>N. N. Nikitenkov, Yu. I. Tyurin, I. P. Chernov, A. M. Lider, and A. V. Skirnevskii</i>	440
Investigation of Oxidation Process and Properties of Indium and Tin-Based Thin-Film Heterostructures	
<i>V. A. Logacheva, T. A. Myachina, A. N. Lukin, and A. M. Khoviv</i>	444
Photoemission and Luminescence Properties of Quartz Glass Implanted with Cu <sup>+</sup> Ions	
<i>A. F. Zatsepin, V. S. Kortov, N. V. Gavrilov, and D. Yu. Biryukov</i>	450
Effect of Pulsed Plasma and High-Current Electron Beam Treatments on the Structure and Properties of Nickel-Based Coatings	
<i>O. P. Kul'ment'eva and A. D. Pogrebnyak</i>	454
Composition Separation in the Surface Layers of a Ni–Cu Foil during Ion Implantation	
<i>A. A. Novoselov, F. Z. Gil'mutdinov, and V. Ya. Bayankin</i>	474
Microdeformations of the Crystal Lattices of Ga-Doped PbTe Films on Si Substrates	
<i>M. K. Sharov and Ya. A. Ugai</i>	481
Study of Iron-Containing Silumin Structures Doped with Manganese from a Salt Melt	
<i>N. M. Barbin, I. G. Brodova, T. I. Yablonskikh, and N. A. Vatolin</i>	485
Influence of Composition and Molecular Weight Characteristics of Methacrylic Copolymers on Their Sensitivity to Extreme Ultraviolet Radiation	
<i>S. A. Bulgakova, I. P. Ivanov, A. Ya. Lopatin, and L. M. Mazanova</i>	491
Temperature Behavior of the Photovoltaic and Pyroelectric Responses of Sn <sub>2</sub> P <sub>2</sub> S <sub>6</sub> Semiconductor Ferroelectric Films	
<i>A. A. Bogomolov, A. V. Solnyshkin, D. A. Kiselev, I. P. Raevskii, V. Yu. Shonov, and D. N. Sandzhiev</i>	496
Influence of High-Temperature Annealing on the Relaxation Times of Nonstoichiometric Lead Ferroniobate Ferroelectrics	
<i>O. V. Malyshkina, E. V. Barabanova, N. D. Gavrilova, and A. M. Lotonov</i>	502
Influence of the Grain-Size and Chemical Composition of a MgO Coating on the Structure–Phase State and Elemental Composition of the Ground Layer Formed on an Electric Steel Surface	
<i>S. B. Kushchev, S. A. Soldatenko, S. A. Khripushin, A. T. Kosilov, B. L. Agapov, V. I. Lavrov, and Yu. I. Larin</i>	505
