Proceedings of the XXXVIII International Conference on Physics of Interaction of Charged Particles with Crystals (Skobeltsyn Institute of Nuclear Physics, Moscow State University, Moscow, Russia, 2008)

Growth and Study of Ultrathin Insulating SiO ₂ and MgO Layers on the Ferromagnetic Electrode Surface <i>A. V. Zenkevich, Yu. Yu. Lebedinskii, A. Yu. Goikhman, V. N. Nevolin, P. N. Chernykh, V. S. Kulikauskas, R. Mantovan, and M. Fanciulli</i>	173
Study of Carbon Material Surface Layers Modified by Nitrogen and Argon Ion Irradiation <i>N. N. Andrianova, L. D. Bogomolova, A. M. Borisov, N. A. Krasil'nikova, V. S. Kulikauskas, E. S. Mashkova, and V. V. Tarasova</i>	179
X-Ray Radiation toward Relativistic Electrons Incident on a Flat Target <i>V. K. Grishin</i>	183
Analysis of the Relationship between the Electron-Capture and Electron-Loss Cross Sections for Carbon Ions <i>Yu. A. Belkova, N. V. Novikov, and Ya. A. Teplova</i>	188
Simulation of Sputtering and Desorption of Gold Nanoclusters under Bombardment with 180-eV/atom Au ₄₀₀ Nanoclusters Using the Classical Molecular Dynamics Method <i>E. E. Zhurkin</i>	192
Radiation Effects on Spacecraft Materials <i>L. S. Novikov, V. N. Mileev, E. N. Voronina, L. I. Galanina, A. A. Makletsov, and V. V. Sinolits</i>	199
Polymer Surface Erosion under an Oxygen Plasma Stream <i>V. N. Chernik, A. A. Paskhalov, and A. I. Gaidar</i>	215
Energy Loss Spectra for a Fast Charged Particle Beam Transmitted through a Material Film of Specified Thickness <i>N. N. Mikheev, M. A. Stepovich, and S. N. Yudina</i>	218
Complex Structure of Resonant Coherent Excitation Peaks for Heavy Relativistic Hydrogen-Like Ions under Planar Channeling <i>A. A. Babaev and Yu. L. Pivovarov</i>	223
Focusing of Atoms Sputtered from the (001) Ni Surface for the Gaussian Distribution of Ejected Atoms <i>V. I. Shpinkov and V. N. Samoilo</i>	229
Influence of Ion Bombardment on Residual Stresses in Diamond-Like Carbon Films <i>P. A. Karasev, O. A. Podsvirov, A. Ya. Vinogradov, A. Yu. Azarov, N. N. Karasev, A. S. Smirnov, A. I. Titov, I. V. Korkin, and S. V. Poplevkin</i>	235
Investigation of the Long-Range Effect of Light Irradiation by Means of Rutherford Backscattering/Ion Channeling Spectroscopy <i>V. L. Levshunova, Yu. A. Mendeleva, G. P. Pokhil, D. I. Tetelbaum, and P. N. Chernykh</i>	239
Investigation of the Accumulation of Deuterium in Carbon-Deuterium Films from the T-10 Tokamak <i>L. S. Danelyan, V. V. Zatekin, B. N. Kolbasov, V. S. Kulikauskas, and P. V. Romanov</i>	242
Hydrogen Isotope Accumulation in a Vanadium Alloy under Different Irradiations and the Long-Range Interaction Effect <i>A. N. Mansurova, L. S. Danelyan, V. V. Zatekin, and V. S. Kulikauskas</i>	246
Long-Range Effect under Low-Intensity Irradiation of Solids <i>D. I. Tetelbaum, E. V. Kuril'chik, and Yu. A. Mendeleva</i>	249

Correlation Effects of Multiple Charged Accelerated Ions in Cherenkov Radiation <i>V. S. Malyshevsky, P. V. Sedrba, and A. A. Olkhovsky</i>	259
Asymptotics of the Cross Section for the Electron Loss by Atoms and Ions in Light Media <i>N. V. Novikov and Ya. A. Teplova</i>	264
Application of High-Power Ion Beam for Silver Nanoparticle Formation <i>V. S. Kovivchak, V. I. Dubovik, and R. B. Burlakov</i>	268
Influence of High-Power Ion Beam Treatment on the Resistance to Oxidation in Metals and Alloys <i>T. V. Panova, V. S. Kovivchak, V. I. Blinov, and K. M. Stukova</i>	271
Generation of X-Rays at Bubble Cavitation in a Fast Liquid Jet in Dielectric Channels <i>A. A. Kornilova, V. I. Vysotskii, N. N. Sysoev, and A. V. Desyatov</i>	275
Coherent Schwinger Interaction from Darboux Transformation <i>E. O. Pozdeeva</i>	284
Analytical Calculation of Cathode Spot Parameters on the Electrode Surface in Arc Discharge <i>V. I. Kristya</i>	289
Characterization of Silicon Doped with Sodium upon High-Voltage Implantation <i>V. M. Korol', Yu. Kudriavtsev, A. V. Zastavnoi, and S. A. Vedenyapin</i>	292
VUV Resonant Transition Radiation from Relativistic Electrons <i>M. S. Ladnykh and N. N. Nasonov</i>	298
Optical Properties of Aluminum Oxide after Irradiation with Cobalt Ions <i>A. V. Kabyshev and F. B. Konusov</i>	304
Influence of Argon Ion Bombardment on the Formation of Intermetallic Compounds in the Nickel–Aluminum System <i>V. I. Bachurin and S. A. Krivelevich</i>	313
Features of the Transition Radiation of the Electron in the Vacuum Ultraviolet Range <i>A. S. Kubankin</i>	317
Sputtering of Highly Oriented Pyrolytic Graphite with 30 keV Argon Ions <i>N. N. Andrianova, A. M. Borisov, and E. S. Mashkova</i>	322
Model of Ion Beam Guiding Using a Flat Capillary <i>G. P. Pokhil, K. A. Vokhmyanina, and A. I. Mironchik</i>	326
