Proceedings of XLII International Conference on Particle Crystal Interaction—2012 (Skobeltsyn Institute for Nuclear Physics MSU, 2012, Moscow)

Simulation of the Sputtering of Si Nanoclusters with Diameters of (2–8) nm under Bombardment with Monatomic and Cluster Ions Using the Method of Classical Molecular Dynamics <i>P. Yu. Grigor'ev and E. E. Zhurkin</i>	201
Molecular Dynamics Simulation of the Interaction of Dislocations with Radiation-Induced Defects in Fe–Ni–Cr Austenitic Alloys <i>A. V. Bakaev, D. A. Terent'ev, E. E. Zhurkin, and P. Yu. Grigor'ev</i>	211
On the Role of Structural Defects during Particle Channeling through Carbon Nanotubes <i>A. V. Stepanov</i>	218
Transitions in an Atom Moving Close to the Surface of a Carbon Nanotube <i>I. V. Lysova, A. S. Sabirov, and G. M. Filippov</i>	223
Charge Distribution of Nitrogen Ions Reflected from Copper and Graphite Surfaces <i>N. V. Novikov, Ya. A. Teplova, and Yu. A. Fainberg</i>	227
Width of the Equilibrium Charge Distribution of Heavy Ions in Solid and Gaseous Media <i>N. V. Novikov and Ya. A. Teplova</i>	231
Three-Component Approximation for Estimation of the Nonequilibrium Charge Fractions of Boron and Nitrogen Ions on Passing Through Thin Films <i>Yu. A. Belkova and Ya. A. Teplova</i>	234
Deuteron Disintegration, Thermonuclear and Nuclear Fission Reactions Induced by γ -Quanta in D-Saturated Palladium and Dense Deuterium Gas with Synthesis of New Structures <i>R. Wiśniewski, A. Yu. Didyk, and T. Wilczinska-Kitowska</i>	239
Microstructure and Phase Composition of a Zirconium Coating–Silicon Substrate System Treated Using High-Current Electron Beams <i>V. V. Uglov, N. N. Koval', Yu. F. Ivanov, Yu. A. Petukhov, A. V. Kalin, and A. D. Teresov</i>	248
Ionization Effects of the Heavy Components of Cosmic Radiation in Protected Chips <i>V. Ya. Chumanov, A. G. Kadenskii, and N. G. Chechenin</i>	254
Changes in the Optical Properties of the Functional Surfaces of Spacecraft Exposed to Both Electron and UV Action <i>R. Kh. Khasanshin and A. B. Nadiradze</i>	262
Simulation of the Range of keV-Energy Electrons in a Dielectric Target upon Spatial Charge Accumulation <i>T. A. Kupriyanova, L. R. Minikaev, R. R. Tangishev, M. A. Stepovich, and M. N. Filippov</i>	268
Investigation of Contactless Electron Transmission through Dielectric Channels <i>K. A. Vokhmyanina, P. N. Zhukova, E. F. Irribarra, A. S. Kubankin, Le Thu Hoai, R. M. Nazhmudinov, N. N. Nasonov, and G. P. Pokhil</i>	271
Experimental Study of Polarization Bremsstrahlung from Small-Grained Polycrystals <i>V. I. Alekseev, E. F. Irribarra, A. S. Kubankin, R. M. Nazhmudinov, N. N. Nasonov, V. V. Polyanskii, and V. I. Sergienko</i>	276

Spectral Method in Axial Channeling Theory <i>N. F. Shul'ga, V. V. Syschenko, and V. S. Neryabova</i>	279
Experimental Verification of the Technique for Calculating Light Scattering in Turbid Media and Determination of the Single-Scattering Albedo Based on the Spectroscopy of Elastically Reflected Electrons <i>V. P. Afanas'ev, D. S. Efremenko, and A. V. Lubenchenko</i>	285
Effect of Temperature on the Physical Sputtering of Highly Oriented Pyrolytic Graphite <i>N. N. Andrianova, A. M. Borisov, Yu. S. Virgiliev, E. S. Mashkova, V. S. Sevostyanova, and V. I. Shulga</i>	290
Impact of an Ion-Flux Non-Uniformity on the Sputtering of a Target with a Surface Relief in a Glow Discharge Plasma <i>V. I. Kristya and Ye Naing Tun</i>	295
<hr/>	
Effect of Ion Bombardment on the Field Emission of Graphite Materials <i>N. N. Andrianova, A. M. Borisov, V. V. Borisov, Yu. S. Virgiliev, E. S. Mashkova, V. S. Sevostyanova, and M. A. Timofeev</i>	299
Microstructure and Composition of Catalytic Layers Formed by the Ion-Beam-Assisted Deposition of Platinum onto Carbon Substrates <i>V. V. Poplavskii and A. V. Dorozhko</i>	303
Microstructure of Metals and Alloys in the Heat-Affected Zone Produced by a High-Power Ion Beam <i>T. V. Panova, V. S. Kovivchak, G. I. Gering, and D. O. Doronin</i>	310
Forming Corrosion-Resistant Compositions in the Surface Layers of Hard Cermet Alloys Using Combined Ion-Beam Irradiation <i>G. A. Vershinin, K. N. Poleschenko, and S. N. Povoroznyuk</i>	315
Medium Energy Ion Scattering Spectroscopy: Study of Germanium Amorphization under Ion Irradiation <i>A. A. Shemukhin, Yu. V. Balakshin, P. N. Chernykh, and V. S. Chernysh</i>	318
Investigation of a Stainless-Steel Surface Irradiated with Protons in an Iodine Medium <i>S. S. Zyryanov, A. V. Kruzhalov, F. G. Neshov, O. V. Ryabukhin, and M. V. Kuznetsov</i>	322
Temperature Dependence of the Radiation-Induced Hardening of EP-823 Steel after 7-MeV Ni ⁺⁺ -Ion Irradiation <i>G. V. Lysova, G. A. Birzhevoi, and S. M. Obraztsov</i>	328
Synergetic Approach to Studying Material Sputtering under Ion Bombardment <i>S. E. Maksimov, B. L. Oksengendler, and N. Yu. Turaev</i>	333
Measurement of Intense X-Ray Spectra: Methods Based on CXR and Ross Filter <i>G. L. Bochek, V. K. Voloshin, O. S. Deiev, and N. I. Maslov</i>	339
Supramolecular Organization of <i>meso</i> -Substituted Derivatives of Tetraphenylporphine in Thin Films <i>A. V. Kazak, N. V. Usol'tseva, S. G. Yudin, and V. V. Volkov</i>	347
Waveguide Effect for Hypersonic Waves in Silicon with Dislocations <i>V. L. Levshunova, G. P. Pokhil, and D. I. Tetelbaum</i>	351
Model of the Dynamics of Ion Propagation through Dielectric Capillaries <i>G. P. Pokhil and V. V. Cherdyntsev</i>	356
Study of the Impact of Steady-State Plasma on Radiation-Damaged Tungsten <i>B. I. Khripunov, L. S. Danelyan, V. V. Zatekin, V. S. Koidan, V. S. Kulikauskas, S. T. Latushkin, V. B. Petrov, A. I. Ryazanov, E. V. Semenov, V. G. Stolyarova, and V. N. Unezhev</i>	362

The Study of Ceramic-Like Oxide Coatings on Zirconium Produced by Plasma Treatment in Electrolytes	
<i>A. M. Borisov, V. G. Vostrikov, E. A. Romanovsky, N. V. Tkachenko, A. V. Vinogradov, B. L. Krit, S. V. Savushkina, and M. N. Polyansky</i>	366
Modification of T15K6 Hard-Alloy Surface Layers with Titanium and Zirconium Coatings under the Action of Compression Plasma Flows	
<i>V. V. Uglov, A. K. Kulehov, E. A. Krutilina, V. M. Astashinskii, and A. M. Kuz'mitskii</i>	371
Effect of Oxide Surface Metallization under Ion-Beam Irradiation	
<i>N. V. Alov</i>	378
Photoelectron Emission for Layers of Finite Thickness	
<i>V. P. Afanas'ev, D. S. Efremenko, D. A. Ivanov, P. S. Kaplya, and A. V. Lubenchenko</i>	382
Coherent X-Rays Excited by a Relativistic Electron Crossing a Periodic Stratified Structure in Bragg Scattering Geometry	
<i>S. V. Blazhevich, Yu. P. Gladkikh, and A. V. Noskov</i>	388
Stochastic Mechanism for Charged-Particle Deflection by Means of a Bent Crystal in the TeV Energy Range	
<i>N. F. Shul'ga, I. V. Kirillin, and V. I. Truten'</i>	398
